

RE-IMAGINING
THE MODERN HOME.

WORLD WIDE STEREO
AWE INSPIRED. SINCE 1979.

In the mid-1800s, indoor plumbing transformed the family home - and yes, it was wonderful. Soon after, it was all about electricity, which came with lightbulbs, toaster ovens, blowdryers and so on. But what's happening with today's modern home now hovers beyond amazing, and there's no one more qualified to make it happen than World Wide Stereo.

We bring the world's finest consumer electronics and home entertainment systems together in one place - from practical to exotic - no gimmicks, no junk - and then find the right people to explain and demo the difference. Our credo: keep pricing competitive and provide customer service even years after the sale. Earn our customers' trust every single day, never hide from mistakes, and build on integrity.

In many ways, today's World Wide Stereo feels a lot like the 1979 version. But with the addition of e-commerce, two more storefronts and a growing international customer base, we've grown up some, too. Though Bob, Karen, Ron and pretty much the whole original gang - are still here. After all, why would we ever leave?

THE ONLY STORE OF ITS KIND, ANYWHERE IN THE WORLD.

WELCOME TO MONTGOMERYVILLE.

We rebuilt our storied, flagship store in early 2015 with the goal of totally rethinking the shopping experience. Now, in lieu of racks of product and supermarket-like aisles, we present home technology in its more natural environment – at work and play in rooms just like you have at home. So you can see, hear and feel for yourself just how good (and often inconspicuous) today's newest home technologies can be, when beautifully integrated within real-life settings. Specialties include:

*Audio • Video • Home Theater • Whole House Music • Wireless Home Networks • IMAX
Outdoor Entertainment • Lighting & Shade Control • Custom Car Electronics • Digital
Playground • Lifestyle Furniture • Gadgets • Professional Technology Design & Installation*

The only way to really experience Montgomeryville is to go to Montgomeryville.
So come, discover new possibilities, get inspired – and make yourself at home.

WHERE INTERIOR DESIGN MEETS ROCKET SCIENCE:
**ARDMORE: OUR TECHNOLOGY
DESIGN GALLERY.**

Ardmore is all about the newest, coolest home technologies, beautifully integrated with today's interior design trends, to one end: improving quality of life at-home, in every room of the house, day and night. Grab a front row seat in a state-of-the-art Hollywood screening room worthy of an Oscar-winning director – or just stop by for a last minute birthday gift. In between, you'll find the best in:

*Audio • Video • Home Theater • Whole House Music • Wireless Home Networks • IMAX
Outdoor Entertainment • Lighting & Shade Control • Digital Playground • Lifestyle Furniture
Gadgets • Professional Technology Design & Installation*

So, what do you call a Main Line establishment that offers patrons "technology tours?" Where rich, beautiful music sweeps you off your feet, and home theaters disappear at the touch of a button? We're sticking with Ardmore, and once you see it – we're betting you will, too.

INSPIRATION HAS AN ADDRESS.
AND A VERY DEDICATED FAN BASE.

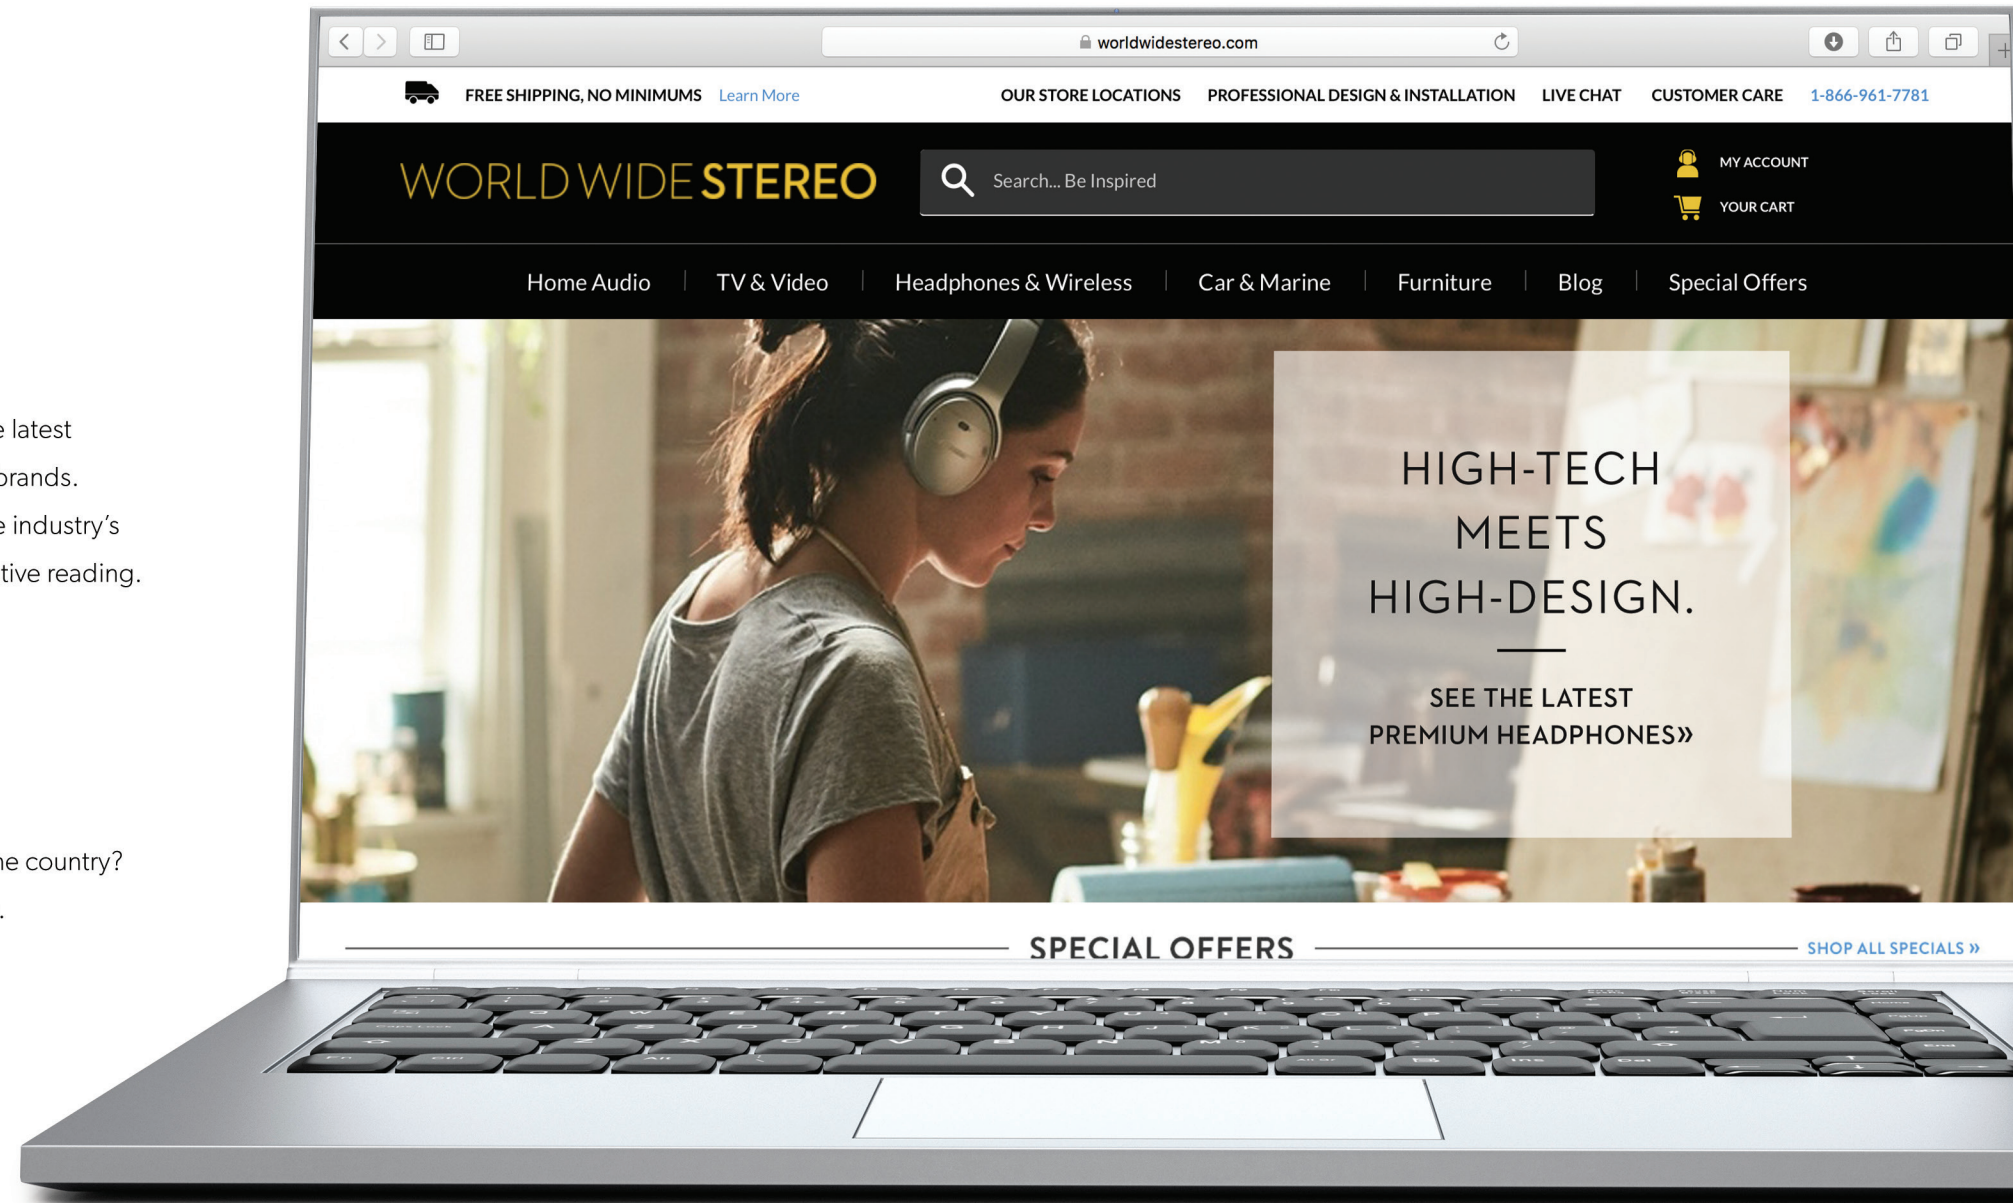

WORLD CLASS SHOPPING AT WORLDWIDESTEREO.COM

How do you make the best big little store online? Start with all – and we mean all – the latest entertainment and smart technologies from every single one of the world’s premiere brands. Add the Internet’s best prices, always, not to mention free shipping, always. Stir in the industry’s best customer service and then top with some fun (and sometimes irreverent) informative reading. How to become the fastest growing independent audio/video e-commerce store in the country?
Step 1: find the best independent audio/video e-commerce people. Step 2: hire them.

**Rated #2 in customer service by
USA today, right behind Amazon.**

WHERE CAN'T-BE-DONE GETS DONE. BEAUTIFULLY.
CUSTOM INTEGRATION—
NO SHORTCUTS, NO EXCEPTIONS.

Whether we're hanging a razor-thin flatscreen in your family room, or building a custom home theater from the ground up, every World Wide Stereo experience comes with engineers, technicians and project managers who are second to none. Our work is smart, meticulous, and when finished – practically invisible. Bottom line: no manuals, nothing to memorize, and everything works easily and seamlessly. So you rule your home technology – not the other way around.

Home Theater Design & Installation • Whole House Music • Lighting & Shade Control • Wireless Home Networks • Home Control Systems • Outdoor Entertainment • Mobile Entertainment

Once upon a time, a warm fire kept everyone home. Today, it's a cozy home theater, home sweet beautiful music, and personal devices humming in networked harmony... every time, all the time. And that's what we do.

START TAKING THE LONG WAY HOME.
AND LOVING EVERY SECOND.

THE GARAGE.

Your choice: spend 15 hours a week in the car like the average American – or spend the same 15 hours in total, connected, euphoric bliss like the average World Wide Stereo car customer. Our line of upgrades run from minimal to exotic, from “that’s a nice touch” to “holy cow,” and our mobile electronic technicians are experts in stealth: keeping a car looking totally stock, yet still swapping out old for new, and good for much, much better.

*Audio • Video • Radar • Remote Car Starter • Internet Streaming • Satellite
Smart Device integration (via Bluetooth, usb or aux patch) • Proximity
Detectors • Cameras • Collision Avoidance*

Some automakers could do better when it comes to their stock audio systems, and we’re looking at you BMW, Jeep and Subaru. Our car techs will bring your car audio up to speed, and then some. (“Mommy, why is daddy sleeping in the garage again?”)
